Food and Agriculture Organization of the United Nations
FAO Representation South Sudan

INVITATION TO BID / TENDER No: 2021/FRSSD/FRSSD/113684

- "Corrupt practice" or "corruption" means the offering, giving, receiving or soliciting, directly or indirectly, of anything of value whether tangible or intangible to improperly influence the actions of another party;
 - "Fraudulent practice" or "fraud" means any act or omission, including misrepresentation that knowingly or recklessly misleads, or attempts to mislead, a party to obtain a financial and/or other benefit and/or to avoid an obligation;
 - "Collusive practice" is an arrangement between two or more parties designed to achieve an improper purpose, including influencing improperly the actions of another party;
 - "Coercive practice" is impairing or harming, or threatening to impair or harm, directly or indirectly, any party or the property of the party to influence improperly the actions of a party;
 - "Unethical practice" is any act or omission contrary to the conflict of interest, gifts and hospitality or post-employment FAO policy (see <http://www.fao.org/unfao/procurement/codeconduitethique/en/>), as well as any provisions or other published requirements of doing business with the Organization, including the UN Supplier Code of Conduct (https://www.un.org/Depts/ptd/sites/www.un.org.Depts.ptd/files/files/attachment/page/pdf/unscc/conduct_english.pdf); and
 - "Obstructive practice" is an act or omission by a Third Party that may prevent or hinder the work of the Investigation Unit of the FAO Office of the Inspector General.
- (b) If FAO determines that a bidder or supplier has engaged in a Sanctionable Action, FAO will impose sanctions in accordance with the prevailing Sanctions Procedures: http://www.fao.org/fileadmin/user_upload/procurement/docs/FAO_Vendors_Sanctions_Policy_-_Procedures.pdf. In addition, FAO may share information on sanctioned vendors with other Intergovernmental or UN Organizations.
- (c) FAO may reject an offer for award if it determines that the bidder recommended for award, or any of its personnel, or its agents, or its sub-consultants, sub-contractors, service providers, suppliers and/or their employees, has, directly or indirectly, engaged in a Sanctionable Actions in competing for the contract in question.

15. Disclosure of Sanctions or Temporary Suspension: The Bidder and its affiliates, agents and subcontractors should not be suspended, debarred, or otherwise identified as ineligible by any Intergovernmental or UN Organization, including any organization within the World Bank Group or any other multi-lateral development bank, or by the institutions and bodies of economic integration organizations (e.g., the European Union). You are therefore required to disclose to FAO whether your company, or any of its affiliates, agents or subcontractors, is subject to any sanction or temporary suspension imposed by any such organization or National Authority at any time during the three years prior to this Contract or at any time throughout the execution of this Contract. You acknowledge that a breach of this provision will entitle FAO to terminate its Contract with your firm and that material misrepresentations on your status constitute a fraudulent practice.

16. UN Security Council Sanctions: The Bidder must certify that it is not associated, directly or indirectly, with entities or individuals (i) that are associated with terrorism, as in the list maintained by the Security Council Committee established pursuant to its Resolutions 1267 (1999) and 1989 (2011), or (ii) that are the subject of sanctions or other enforcement measures promulgated by the United Nations Security Council. Selected bidders also agree to undertake all reasonable efforts to ensure that none of the funds received from FAO under the awarded contract are used to provide support to individuals or entities associated with terrorism or that are the subject of Security Council sanctions. This provision must be included in any subcontracts, sub-agreements or assignments entered into under the awarded contract. The bidder acknowledges and agrees that this provision is an essential term of the awarded contract and any breach of these obligations and warranties shall entitle FAO to terminate the Contract immediately upon notice to the Contractor, without any liability for termination charges or any liability of any kind of FAO.

Special Requirements and Conditions:

1. FAO reserves the right at its discretion to cancel this solicitation process if and when deemed necessary without any obligation to bidders; vendors will be informed accordingly.

Food and Agriculture Organization of the United Nations
FAO Representation South Sudan

INVITATION TO BID / TENDER No: 2021/FRSSD/FRSSD/113684

2. FAO will reserve the right to give preference to offers proposing the best overall delivery schedule, i.e. able to exhaust the total quantity offered/awarded with the minimum number of batches and/or timeline for contract execution. Following this rationale, FAO will consider also:
 - a) Awards based on partial quantities available from different suppliers that may allow FAO to source the largest possible quantity, out of the total awarded, in the shortest delivery timeframe;
 - b) Distributed awards to different suppliers based on their actual sourcing, financial/liquidity and logistic capacities, assessed by FAO during the evaluation phase thus to mitigate risks of non-performance of suppliers due to overstretching of their actual capacities.
3. FAO reserves the right to adjust the required quantities and to make **partial awards** if deemed necessary and/or appropriate.
4. Partial offers of requested lots, if applicable, are NOT acceptable. However, partial offers are acceptable if goods are not requested to be delivered in lots.
5. Arithmetical errors and discrepancies on the Financial Offer:
 - If there is a discrepancy between the unit price and the total price that is obtained by multiplying the unit price and quantity, the unit price will prevail and the total price will be corrected, unless in the opinion of evaluators, there is an obvious misplacement of the decimal point in the unit price, in which case the total price as quoted will govern and the unit price will be corrected.
 - If there is an error in a total corresponding to the addition or subtraction of subtotals, the subtotals will prevail and the total will be corrected.
 - In case of discrepancy between a word and figures, the amount in words will prevail, unless the amount expressed in words is related to an arithmetic error, in which case the amount in figures will prevail subject to the note above.
6. Samples: If samples of goods are required as part of the evaluation, as specified in the Technical Specifications (Appendix 1), such samples are to be provided free of charge and are usually not returnable.
7. Inspection: In the event of an order, Inspection on quantity, compliance with technical specifications (quality), packing and marking may be arranged at loading/unloading by an independent superintending agency at FAO expense. In responding to our tender invitation and accepting FAO Terms and Conditions, you hereby specifically authorize FAO and FAO nominated inspection company, to visit without formalities your premises and/ or warehouses and /or manufacturing facilities before or after issuing the eventual order.
8. Liquidated/Actual Damages: At FAO's discretion, damages may be applied to payments to be made in connection with any order as follows:
 - **Inferior Quality:** FAO, at its sole discretion, reserves the right to either reject any delivery that does not comply with the technical specifications or to accept such delivery and apply actual or liquidated damages to be determined by FAO;
 - **Late Delivery:** In the event of late delivery, liquidated damages will be applied at a rate of 2.5% of the value of the goods per week of delay. The liquidated damages applied for late delivery will not exceed 10% of the total order value.
 - **Special note:** **In case the delay in completing the delivery from a selected supplier is going to exceed the delivery timeframe proposed by a lowest bidder discarded due to a longer delivery time offered then FAO will deduct as "actual damages" from the payment of the invoice the difference in price between the value of the PO/offer selected and the lowest bid that has been considered as commercially not responsive during the evaluation because of the longer delivery time offered which was not in line with FAO's requirement.**
